THE X4 LABS PENIS EXTENDER

X4 Labs specializes in the manufacturing, production, and retail of male enhancement products designed to improve sexual performance, increase penis size and improve overall male health. Our product lines focus specifically on male beauty and sexual products.

About the Penis Extender

Our most successful product is currently the penis extender, a doctor endorsed and medically certified device designed to provide permanent penis enlargement. Classified as CE Type 1 Medical Device, the penis enlargement product is safe for in-home use and has no significant side effects. With comfort, safety and success being the priorities at X4 Labs, we ensure the success of each of our patients by backing them by our 6 Month Satisfaction and Growth Guarantee. If you do not achieve results, we'll give you your money back.

What Type of Results to Expect

In previous independent clinical studies conducted on the use of the penis extender, indicate average results of 33% in length and 35% in girth. The participants of the study ranged in age between 18-85 years old, indicating that age has no influence on the results of the penis enlargement device.

What Makes X4 Labs Different?

Our Hybrid Support System gives our patients superior comfort offer three various forms of fixation, including our Comfort Strap Technology, Loop Fastening System, and Silicone Harness Supports. We also understand that every man's body type varies and in order to ensure proper support, we have introduced the Customizable Mini Support Piece which allows for treatment of micro-penis and smaller sized men.

Benefits of the Penis Extender

- Increase in Penis Length of 33%
- Increase in Penis Girth of 35%
- Correction of Penile Curvature or Peyronie's Disease (40-95%)
- Better Sexual Performance and Stronger Erections

Customer Support Team

Our dedicated 24 hour support team is always available to provide you with assistance and usage tips. You can feel free to contact us at any hour and customer service representative will respond to you promptly. Our customer support forum also provides patients with a community based support resource allowing you to discuss your experiences, results, tips and tricks.
